” Professional Planner has convinced us and meets our requirements: simple data import from Excel and SAP systems, multidimensional analysis options and highly flexible application.,,
Ralf Hennig, Head of Center Controlling, Airport Düsseldorf International

Airport Düsseldorf International – Company information

Düsseldorf International is the biggest airport in North Rhine-Westphalia, Germany's most densely populated state. The airport serves as international nexus for passengers, goods, know-how, technical and cultural ideas and is also an important economic factor. There are about 16 million passengers a year and an average of 65,000 passengers start or land here every day. This makes Düsseldorf International Germany's.
